

# THE 13<sup>TH</sup> ASIA-PACIFIC LANDFILL SYMPOSIUM (APLAS 2026)

## SPONSORSHIP PROSPECTUS

*Advancing Waste Management and Technology  
for a Circular and Sustainable Future*

Bandung, Indonesia

**Hosted by**

Faculty of Civil and Environmental Engineering  
Institut Teknologi Bandung (ITB)

13thaplas2026@itb.ac.id

# ABOUT APLAS 2026

**The Asia-Pacific Landfill Symposium (APLAS)** is a biennial international forum that brings together researchers, academics, government officials, industry representatives, and environmental practitioners from across the Asia-Pacific region. The symposium provides a platform for exchanging knowledge, sharing experiences, and discussing innovative and sustainable solutions in landfill engineering, waste management, circular economy, and environmental protection.

**The 13th Asia-Pacific Landfill Symposium (APLAS 2026)** will be hosted by the **Faculty of Civil and Environmental Engineering (FTSL), Institut Teknologi Bandung (ITB), Indonesia.**

## **Why Bandung?**

As the host city of **APLAS 2026**, Bandung offers a unique blend of academic excellence, innovation, and cultural heritage. Supported by a strong research ecosystem, improved accessibility through **the Whoosh High-Speed Railway**, and a wide range of urban waste management case studies, Bandung provides an ideal setting for international collaboration, knowledge exchange, and professional networking across the Asia-Pacific region.

 KOWASTE : Korea Waste Association

Bandung, the capital city of West Java Province, is recognized as one of Indonesia's leading centers for higher education, innovation, and technology development.

Home to Institut Teknologi Bandung (ITB), Bandung provides an ideal environment for international scientific meetings and professional networking activities. The city offers a unique combination of academic excellence, cultural heritage, modern infrastructure, and hospitality.

Participants will have the opportunity to engage with experts from across the Asia-Pacific region while experiencing the rich culture and vibrant atmosphere of Bandung.

**Partnering for Sustainable  
Waste Management and  
Environmental Innovation**

## **Advancing Waste Management and Technology for a Circular and Sustainable Future**

The global transition toward a circular economy requires innovative approaches to waste management, resource recovery, and environmental protection. As population growth, urbanization, and industrial development continue to increase waste generation, the need for sustainable and technology-driven solutions becomes increasingly important.

### **Objectives**

- Facilitate scientific and technical exchange on landfill and waste management issues.
- Promote sustainable landfill practices and environmental protection.
- Encourage collaboration among researchers, policymakers, and industry professionals.
- Showcase innovative technologies and best practices in waste management.
- Strengthen regional cooperation among Asia-Pacific countries.

# WHY SPONSOR APLAS 2026?

## Increase Brand Visibility

Gain exposure among international researchers, government agencies, environmental professionals, and industry leaders.

## Promote Your Solutions

Showcase innovative technologies, products, and services related to waste management and environmental sustainability.

## Build Strategic Partnerships

Develop relationships with potential clients, collaborators, policymakers, and decision-makers.

## Support Sustainable Development

Demonstrate your organization's commitment to environmental stewardship and sustainable resource management.

## Align Your Brand with Sustainability

Strengthen your corporate image through support for environmental innovation and circular economy initiatives.

# PARTICIPANT PROFILE

## Expected Participants

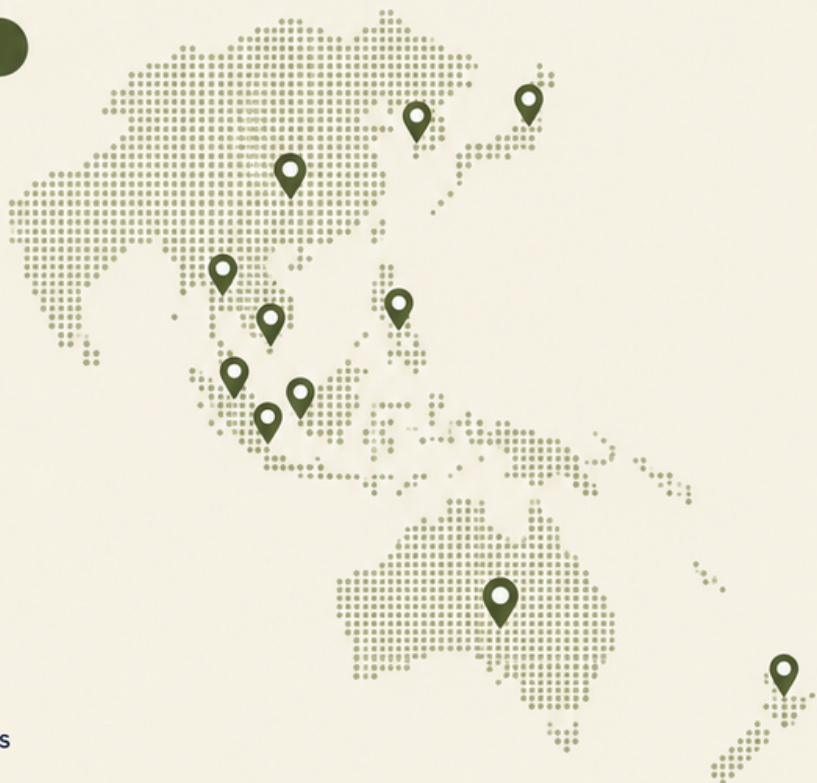

-  Researchers
-  Academics
-  Government Officials
-  Environmental Agencies
-  Waste Management Companies
-  Landfill Operators
-  Technology Providers
-  Engineering Consultants
-  Non-Governmental Organizations
-  International Organizations

## Geographic Coverage

Expected participation from:

-  Indonesia
-  Japan
-  Republic of Korea
-  China
-  Malaysia
-  Singapore
-  Thailand
-  Vietnam
-  Philippines
-  Australia
-  New Zealand
-  Other Asia-Pacific Countries

# EXHIBITION OPPORTUNITIES

The exhibition area will provide sponsors with **direct access** to conference participants throughout the symposium.

Organizations will have opportunities to showcase **technologies, equipment, consulting services, software, and innovative solutions** related to waste management, landfill operation, environmental monitoring, recycling, resource recovery, and circular economy development.

The exhibition is expected to attract researchers, government representatives, consultants, investors, and industry professionals from across the **Asia-Pacific region**.

# HOW TO BECOME A SPONSOR

---

01

Select a sponsorship package.

02

Complete the Sponsorship Confirmation Letter.

03

Submit the confirmation form to the Organizing Committee.

04

Sign the Sponsorship Agreement.

05

Receive an official invoice issued by Institut Teknologi Bandung.

06

Complete the sponsorship payment.

07

Submit company logo and promotional materials.

08

Receive sponsorship benefits according to the selected package.
